A Deplorable Condition

Carson papers announce that the suit of the receiver of the State Bank and Trust company against the directors of the defunct institution will be compromised. In addition the papers relate that a compromise would be an excellent thing as the case has cost the directors a pretty penny, while the receiver has been forced to hire expert testimony.

It is not to be wondered that the directors have been fighting the case. If they were allowed to pay into the bank the sum of money demanded, and the aforesaid sum would go directly to the depositors, it is doubtful if the suit would have resulted. However, according to the record of Receiver Wildes, the depositors received a 10 per cent dividend several years ago and since that date all money taken in has been going to defray the receiver's expenses.

It is not to be wondered at that every suit instituted by the receiver, with the depositors' money paying the expenses, has been resisted. Thousands of dollars, that would have been gladly received by the depositors, has been spent in maintaining a receiver who is more of an ornament than otherwise, and who spends the majority of his time outside the state, leaving the real work to be accomplished by deputies and clerks.

Notwithstanding the criticism that has arisen over the handling of the State Bank and Trust company affairs, Judge Langan of the district court, who appointed Wildes, appears content with the result and makes no effort to demand an accounting that the depositors might be informed as to the chances they stand in securing dividends.

HUGE ACREAGE TO BE TAKEN UP UNDER CAREY ACT

COMPANY WILL TAKE UP ABOUT
60,000 ACRES IN RAILROAD
VALLEY

A. E. Chandler, formerly state engineer for Nevada, and H. W. Jariam, soil expert in charge of the Truckee-Carson project at Fallon, arrived in Tonopah yesterday morning and departed today for railroad valley, where they will make a preliminary examination of the Carey land project that is being fostered by the Railroad Valley company. It is the intention of the company to secure 60,000 acres of land under the Carey act, and the two experts will spend several weeks in going over the district.
